

RESEARCH GRANTS COUNCIL

COMPETITIVE RESEARCH FUNDING SCHEMES FOR THE LOCAL SELF-FINANCING DEGREE SECTOR 2021/22

INSTITUTIONAL DEVELOPMENT SCHEME (IDS) RESEARCH INFRASTRUCTURE GRANT

Guidance Notes (IDS(R)2) for Completing the Application Form IDS(R)1

All applicants should read this set of Guidance Notes (IDS(R)2) carefully before completing and submitting your research proposal. The Research Grants Council (RGC) may stop further processing your application if your application is found not in compliance with any of the requirements as set out in this set of Guidance Notes (IDS(R)2).

GENERAL

1. Please read the Eighth Call for Proposals for details of the Institutional Development Scheme (IDS) Research Infrastructure Grant, and make reference to the “Guidelines on Disbursement, Accounting and Monitoring Arrangement for the Competitive Research Funding Schemes for the Local Self-financing Degree Sector” (SF-DAMA) which is available at the RGC website.

2. In this Eighth Call for Proposals, applications must come from one of the following fifteen local self-financing degree-awarding institutions:

<u>Code</u>	<u>Institution</u>
11	Caritas Institute of Higher Education
12	Centennial College
13	Chu Hai College of Higher Education
14	The Hang Seng University of Hong Kong
15	Hong Kong Shue Yan University
16	The Open University of Hong Kong
17	Tung Wah College
21	HKCT Institute of Higher Education
22	Hong Kong Nang Yan College of Higher Education
23	School of Continuing Education, Hong Kong Baptist University
24	School of Professional Education and Executive Development, The Hong Kong Polytechnic University
25	Technological and Higher Education Institute of Hong Kong
31	Gratia Christian College
41	Yew Chung College of Early Childhood Education
51	UOW College Hong Kong

3. The application must be submitted on an institutional basis by the Head of Institution. Each institution is allowed to submit one application under the IDS Research Infrastructure Grant in each exercise.
4. These notes are intended to be read by the applicants / related staff of institutions specified in Paragraph 2 above before completion and submission of the IDS Research Infrastructure Grant application.
5. The Application Form contains three parts and five annexes as follows:

Part I	Summary of the Proposal
Part II	Details of the Proposed Project
Part III	Declaration of Institution
Annex A	One-page Summary of Proposed Project
Annex B	Implementation Timetable
Annex C	One-page Summary of Funded IDS Project
Annex D	Utilization of Asset funded by IDS Project
Annex E	Summary of Courses, Students and Staff Numbers
6. For applications which have genuine special needs to be completed in a language other than English, applicant(s) / institution(s) are required to provide an English version of the Abstract and Project Details (i.e. Project Objectives and Pathways to Impact Statement; and Project Descriptions).
7. In order to ensure consistency and fairness, applicants must complete the applications in the following **standard RGC format**. **Failure to comply with the following format may lead to disqualification of their applications.**

Font: Times New Roman
 Font Size: 12 point
 Margin: 2.5cm all round
 Spacing: Single-line spacing
 PDF version: compatible with Adobe Acrobat Readers 5 and should be a text-searchable pdf
8. **All sections should be completed.** Where information sought is not applicable or not provided under a particular section, insert “N/A”.
9. Before submission, a project reference number should be assigned by the Institution for the proposal for identification purposes. The format of the reference number is: UGC / Scheme + Institution Code / Year, e.g. UGC / IDS(R)11/21. The project reference number should be used and quoted in all future correspondence.

10. The **deadline for submission of application is 1 March 2021 (Monday) 5:00 pm**. Four hard copies (including the original version) and one soft copy of each proposal are required to be forwarded to the UGC Secretariat through the institution. Institutions are required to submit the soft copy of all applications in one USB memory stick as far as possible in a format specified by the Secretariat. The file size of each proposal is **up to 5MB**, with the file name identical to the project reference number. The content of the soft and hard copies should be **identical**. The application will not be processed if such discrepancies are spotted.
11. Institutions are required to submit the applications together with a summary of critical information (in Excel table) on the proposals for the funding scheme. The completed critical data file should be forwarded to the Secretariat by email on or before **5 March 2021 (Friday) 5:00 pm**.
12. To help reduce the cost of processing and save paper, applicants are urged to keep the length of proposals and attachments to the minimum and to use double-sided printing / photocopying when making copies. It is important that applicants should comply with the page limits specified in various sections of the Application Form. **Applications will be disqualified if the proposals are found to have exceeded the allowable page limits in various sections of the Application Form.**
13. It is the obligation of the Project holder to ensure that his / her application contains sufficient and consistent information for evaluation. **Incomplete submission** (such as those lacking substantial data / information for evaluation) **or inconsistent / inaccurate information would lead to the disqualification of an application.**
14. Applicants are not allowed to mention anything not related to the research proposal per se in the Application Form (such as describing the funding rules) with a view to **communicating to the reviewers** that the latter should give a certain rating if they intend to support the projects. **Should such act be discovered, the applications concerned will be disqualified.**
15. A **Selection Interview** will be conducted with the project team of each shortlisted application under the IDS Research Infrastructure Grant in **mid-August 2021**. To ensure that the funding for the proposed IDS Research Infrastructure Grant projects will be effectively deployed, the project teams are required to complete the one-page summary in **Annex C** to IDS(R)1 to report the development on their on-going / completed IDS projects (i.e. those projects granted from 2014/15 to

2018/19 exercises), and / or on-going / completed IDS Research Infrastructure Grant Projects (i.e. those projects granted from 2019/20 exercise) if any, and elaborate on whether and how the proposed IDS Research Infrastructure Grant project can create synergy with the on-going / completed project(s), and how the deliverables of the proposed and the on-going / completed project(s) can complement with each other.

16. Institutions should also report in **Annex D** to IDS(R)1 the condition / utilization of all major facilities / equipment previously supported by the IDS / IDS Research Infrastructure Grant to ensure that those items are well managed and utilized during and beyond the project period.
17. The RGC is fully committed to the principle of honesty, integrity and fair play in the conduct of its business. To uphold public trust and protect public interest, it is important for all applicants to note and observe the “RGC Code of Conduct” and “Extracts from the Prevention of Bribery Ordinance” available at the RGC website (https://www.ugc.edu.hk/doc/eng/rgc/guidelines/code/code_of_conduct.pdf). Applicants are prohibited to **communicate with the RGC Members and Assessment Panel Members on the applications** submitted with a view to influencing the latter in assessing their applications. **Should such act be discovered, the applications concerned will be disqualified.**
18. Unless otherwise stated, all funding levels stated in this Guidance Notes and the Application Form are in Hong Kong Dollars.

INFORMATION UPDATE

19. A brief update of the proposal, if any, should be submitted to the RGC on or before 25 June 2021, indicating any significant changes, e.g. changes in the eligibility of the Team leaders, project team’s CVs, research funding secured, and declaration of related research work etc. It should be emphasized that such update should be confined to the above-said changes, and applicants should not use the opportunity to revise their proposals substantially.
20. If an update is provided for ethics / safety approval for an application, the applicant or the institution should submit the relevant updated data to the RGC on or before 25 June 2021. Submission of letters on ethics / safety approval is however not required at this stage, but such letters, if necessary, may need to be provided upon the RGC’s request.

21. If an update is provided for approval for access to Government / official / private data and records for application, the applicant or the institution should submit the relevant updated data to the RGC on or before 25 June 2021. Evidence of approval should also be submitted at this stage.
22. Other than the specific situations set out, no information update / revision to an application is allowed after submission deadline.

ENQUIRIES

23. Enquiries about the contents of these Guidance Notes and other related matters about the IDS Research Infrastructure Grant should be directed to the Research Coordinators (RCs) or responsible personnel of the institutions who, if in doubt, should consult the UGC Secretariat for clarification. Also, correspondence regarding IDS Research Infrastructure Grant matters including enquiries, appeals and complaints should be made through the RCs or responsible personnel of the institutions.
24. The guidelines on handling the information and personal data contained in IDS Research Infrastructure Grant applications are at **Annex A** to this set of Guidance Notes. Applicants requiring additional information about internal deadlines, application procedures or assistance in completing the Application Form may contact the RCs or responsible personnel of their own institutions.
25. For any situations not covered in this set of Guidance Notes, applicants may make reference to the prevailing practice of other RGC funding schemes and if in doubt, consult the RCs or related personnel of the institutions.

APPLICATION FORM

The ensuing paragraphs set out step-by-step guidelines on completing the Application Form IDS(R)1 where the item numbers correspond to the item numbers on the form. Only one application is allowed from each institution under each IDS Research Infrastructure Grant exercise.

PART I SUMMARY OF THE RESEARCH PROPOSAL

1. Particulars of the Project Holder

- (a) To ensure record accuracy and to facilitate identification of the Project holder, Team leader and Team members of the Project Team, their names on their Hong Kong Identity Cards / Passports (where applicable) should be used and entered in the standard RGC format:

	Surname (in capital letters)	Other Name*
e.g.	CHAN	Peter Tai-wai
e.g.	ZHONG	Yaping
e.g.	ROBINSON	Philip

* First / given name, then Chinese name in English syllables (hyphenated) / middle name, if any; initials should be avoided.

The Project holder must be the Head of Institution himself / herself. Please state the post title for addressing in future correspondence.

2. Particulars of Project Team

- (a)&(b) The Team leader, who can be the Project holder himself / herself or any academic staff of the institution, must be a full-time academic staff employed by one of the self-financing degree-awarding institutions specified in Paragraph 2 under Section “General” above with at least 80% of time spent on locally-accredited local degree or higher degree work¹, and has at least a one-year renewable contract with the institution at the time of funding award being made. The Team leader should undertake the key coordinating position of the proposal.

Once the application is submitted, change of Project holder / Team leader during the processing period will normally not be allowed.

¹ A Team leader who is / will be seconded to conduct research in a university or a research institute / body / agency in the Mainland / overseas jurisdiction while retaining his / her full-time appointment and position with his / her parent institution and is still on the payroll of the parent institution is eligible to apply for the IDS Research Infrastructure Grant.

The Project holder is responsible to report immediately via RC of the institution to the UGC Secretariat any changes in his / her as well as the Team leader's eligibility status.

There is no eligibility requirement for the Team members. The Team members can be any personnel working in the same or different local self-financing degree-awarding institutions, or the UGC-funded universities, or public / private local or overseas institutions / organizations. Each Team member should have a clear, distinct and substantive role. There is no limit in the number of Team members. However, excessive number of Team members should be avoided. Save in very exceptional circumstances, the RGC will not entertain requests for the addition of Team members to a project after the funding award.

If the application is shortlisted for the Selection Interview, three members of the project team including the Project holder, Team leader and **one** Team member should attend the interview. If the Project holder carries the role of Team leader, **two** Team members may attend the interview.

Please provide and indicate, in particular:

- the Open Researcher and Contributor ID identifier (ORCID iD) of the Team leader and each Team member;
- the average number of hours per week to be spent by the Team leader and each Team member on the proposed project; and
- whether the Project holder, Team leader or any Team member(s) is / are RGC Committee / Panel Member(s) as at the deadline of the application.

The Team leader and all Team members are required to provide an ORCID iD to facilitate identification of researchers. ORCID iD can be registered for free at <https://orcid.org>.

- (c) Please summarize the qualifications of the Team leader and each Team member who will be involved in the project. The CVs to be attached should include the following information, as appropriate:
- (i)-(vii) Name, academic qualifications (with dates and name of awarding universities), previous academic positions held (with dates) & present academic position(s) (with date(s)), previous relevant research work, publication records including the five most representative publications in the recent five years and five representative publications beyond the recent five years (10 at maximum) and others including research-related

prizes and awards, brief description of experience in consultancies, service as a referee in evaluating other grant applications, patents, PhD theses supervised, etc.

The author list of the publications in the CV should be presented in full and cited exactly as written in the original publication. In particular, the applicant should indicate clearly his / her position especially in the long author list, say author 13 out of 40 for facilitating panel's consideration. **Failure to comply with the above requirements may lead to disqualification of the concerned application.**

Each CV should be limited to two A4 pages according to the standard RGC format.

- (d) The role and specific task(s) of the Team leader and each Team member in the proposed project should be described clearly.

The Project holder is required to confirm that the Team leader and Team member(s) listed in the proposal have explicitly agreed to serve in the project team and a copy of the proposal has been provided to the Team leader and each of the Team members. The Project holder is required to provide documentary proof on the collaboration upon the request of the RGC / Secretariat.

3. **Particulars of the Project**

- (a) The project title should be informative, but short and concise.
- (b) All applicants must indicate with caution the nature of the application being submitted:

Nature	Definition
New	The application which the applicant applies for RGC funds for the first time.
Re-submission	The application which the applicant previously applied for RGC funds but not supported.
Continuation	The application continuing the work previously funded by the RGC.

The applicant is required to quote the previous RGC reference number if the application is a re-submission / continuation.

- (c) A short abstract of a maximum of one A4 page in standard RGC format on the proposed project should be provided. If a proposal is funded, the applicant will be approached for a Chinese version of the abstract for public access shortly after the announcement of the funding results, or an English version if the original abstract is presented in Chinese.
- (d) Applicant is required to complete the one-page summary of the proposed project in **Annex A** to IDS(R)1 to set out all key objectives and major deliverables of the proposal; and where appropriate, elucidate whether and how the proposed project can create synergy with the previously funded IDS projects and how the deliverables of the proposed and the funded projects can complement with each other. Applicant is also required to complete the implementation time-table in **Annex B** to IDS(R)1 to spell out the proposed milestones of the project to facilitate the consideration on the disbursement arrangement if the project is funded. The time-table is limited to a maximum of two A4 pages in standard RGC format.
- (e) Projects to be funded by the IDS Research Infrastructure Grant should normally last for no more than three years. For proposals of equal quality, preference will be given to proposals with higher impact, larger scope and longer duration over with incremental advanced and shorter duration.

4. Information on the Funded IDS Project(s)

- (a) One-page Summary of Funded IDS Project (Annex C to IDS(R)1)

Please give a brief summary on the previous funded IDS / IDS Research Infrastructure Grant project(s), if any, with maximum of one A4 page in standard RGC format for each project.

- (b) Utilization of Asset Funded by IDS Project (Annex D to IDS(R)1)

Please specify the level of utilization of the funded asset by providing the average usage per month / year. Sharing of resources among institutions is encouraged.

5. Summary of Courses, Staff and Student Numbers (Annex E to IDS(R)1)

Please provide the number of courses, academic staff and students of the institution as at 28 February 2021. Information on actual staff grades and ranks of the academic staff spending 80% or more of their time on locally-accredited local degree or higher degree work should be provided.

PART II DETAILS OF THE PROPOSED PROJECT

PROJECT DETAILS

The proposal should be presented clearly and concisely with enough details to indicate the significance and merits of the project and to permit a meaningful evaluation of the worthiness of the project. **The RGC will not process the application further if insufficient / incomplete information is provided in the Application Form.**

1. Project Objectives and Pathways to Impact Statement

(a) **Project objectives** must be presented in point form. The proposal should develop a programme that supports research. The proposed programme should fall in the strategic areas of the institution's development plan.

(b) Pathways to Impact Statement

Impact refers to the demonstrable contributions, beneficial effects, valuable changes or advantages that research qualitatively brings to the economy, society, culture, public policy or services, health, the environment or quality of life; and that are beyond the academia. It may include social and economic impact and research that translates into products and services, as well as research that aligns with important policy, community and social objectives.

The Pathways to Impact Statement should address the following:

- (i) Who are the potential beneficiaries of the proposed research in the short (1 – 3 years), medium (4 – 10 years) and long term (over 10 years)?
- (ii) How will the potential beneficiaries benefit? What will be the objective demonstrable / measurable benefits beyond academia?
- (iii) What will be done during and / or after the project to increase the likelihood of achieving the identified benefit and reaching the identified beneficiaries?

The Project holder should also state the strategic areas of the institution and how the proposal will help the institution to build and improve the research capacity in its strategic areas in the long run.

Attention: Section 1 (a) and (b) in the Application Form should be limited to two A4 pages in standard RGC format respectively.

2. Project Descriptions

(A maximum of five A4 pages in standard RGC format for each item below)

(a) Programme on Activities to Support Research

Proposal on the organization of Conference / Seminar / Workshop / Exchange Programme or a series of activities that support research. Information including the particular of the activities, programme outline, objective(s), expected outcomes, budget, etc. should be provided.

(b) Asset Purchase and Infrastructure / Physical Research Structure Establishment to Support Research

For proposal on (i) asset purchase (e.g. purchase of research facilities, communal equipment, software licence, dataset), and / or (ii) establishment of research centre / research supporting unit, a “Research Facilities Development / Utilization Plan” should be included.

The Research Facilities Development / Utilization Plan should address the following:

- (i) acquisition of major research facilities, or equipment, including major library acquisitions and datasets for research, which cannot otherwise be afforded by one institution and which can be used for collaborative research;
- (ii) importance of the equipment / facilities in building up the research capacity of the institution;
- (iii) availability of such facilities / equipment within / outside the institution; and
- (iv) benefits of leveraging IDS Research Infrastructure Grant funding in negotiations with equipment suppliers comparing with funding available in individual projects.

In addressing the above, the following areas should be covered:

- (i) A complete description of the physical research facilities and / or infrastructure support, communal equipment and research materials, databases, software licences and computing equipment

made available for research, including specifications, listing of vendors, quotations, service contract, delivery time, and any other facilities and equipment development plan.

- (ii) State the purpose of the proposed equipment / facilities and identify the key research projects being supported, the possible outcome of the research projects in terms of its relevance, significance and value.
- (iii) The proposed management / maintenance arrangement **during** and **beyond** the project period in respect of the following:
 - Level of use:
 - please provide the estimated number of
 - licence holders (if applicable)
 - staff members expected to use the equipment under application
 - the number of hours of its utilization and percentage of utilization (say per month / year as appropriate) per annum
 - Optimal utilization:
 - please advise on
 - whether staff training will be provided / required for the utilization of the equipment / facilities
 - the plans for making the equipment / facilities available for users in the UGC / Self-financing sectors
 - Sustainability
 - please advise on how resources will be secured for
 - maintenance
 - upgrading

The following criteria will be adopted when considering the Research Facilities Development / Utilization Plan:

- (i) the merits of the proposal, its contribution to academic / professional development and potential for application, and benefits to tertiary institutions and Hong Kong;
- (ii) the scope for collaborative research / joint use, and the degree of such usage;

- (iii) plans for maintenance, management and make available to users from UGC-funded universities or other eligible local self-financing degree-awarding institutions;
- (iv) relevancy to this IDS Research Infrastructure Grant proposal;
- (v) any institutional support, including that of the sponsoring / collaborating institutions on the purchase and / or future maintenance / upgrade;
- (vi) the prospect of external funding;
- (vii) maximum value for money; and
- (viii) the availability of similar facilities in Hong Kong.

(c) Support Staff Development Plan

A complete description of administrative and technical supporting staff, and research staff to be employed to support research activities and provide administrative support.

(d) Expected Deliverables of the Project

An elaboration on the expected deliverables of the project; how the deliverables are related to the project objectives and enhance the research capacity of the institution; and what will be the indicator(s) in measuring the effectiveness of the project in enhancing the research capacity of the institution.

Building up a research centre is only a means but not the end of an IDS Research Infrastructure Grant project. Tangible research work arising from the research centre is expected. Applicants are required to clearly articulate in the applications the research work intended to be carried out by the proposed research centre.

3. Re-submission of a Proposal Previously NOT Supported

- (a) The Project holder should provide details in case the proposal is a re-submission (submitted to the UGC / RGC before) or is largely similar to a proposal that has been submitted to the UGC / RGC or other funding bodies. It is the responsibility of the Project holder to declare clearly and honestly whether the proposal is a re-submission. The Project holder should re-visit the main concerns / suggestions previously expressed by reviewers if an earlier / similar version of the proposal has been assessed before. The RGC reserves the right to discount the rating of an application for its failure to acknowledge the fact that it is a re-submission of a previous application.

- (b)&(c) This section allows the Project holder to respond to those comments, and explain whether and what changes have been incorporated in the latest proposal. Some reviewers' comments may be more agreeable / disagreeable than others. However, if a rebuttal is offered, it should be scholarly and preferably measured. Under the existing policy, re-submitted proposals will be treated as fresh applications in peer-review and handled in an identical manner to other new applications.

PROJECT FUNDING

4. Cost and Justification

(a) Estimated Cost and Resources Implications

When preparing the budget plan, it should be made in conjunction with the milestones set out in the Implementation Time-table in **Annex B** to IDS(R)1.

The RGC may not process the application if the proposed budget does not comply with the requirements as set out below. The RGC reserves the right to impose penalty on any institution which fails to screen out non-compliant applications.

A detailed budget for the project throughout the project period should be given. Project holder, Team leader and Team members are not regarded as supporting staff and their salaries must not be paid from the RGC's project fund. Academic staff remunerated by the UGC-funded universities in Hong Kong or academic staff of the self-financing degree-awarding institutions eligible for submission of applications under the RGC funding schemes for the local self-financing degree sector must not be paid with honorarium or other form of payments.

The grant provided by the RGC should only be used to cover project expenditure which would not otherwise be separately incurred. Please refer to the funding policy stipulated in the SF-DAMA.

The estimated costs should not include any regular operational costs, such as the normal salaries of teaching staff who spend a portion of their time on research, cost of utilities, stationery, etc. They should include only expenditure directly related to the proposed project.

It is a mandatory requirement for applicants to prepare an itemized project budget, i.e. budget for individual activities listed on the

Application Form should be supported by itemized breakdown. Items with cost estimates over HK\$200,000 must be supported by quotations. Applications without the inclusion of itemized breakdown and / or quotations will not be considered. Quotations should also be provided for items with cost estimates slightly below HK\$200,000.

Funds will be disbursed on an annual basis according to the cash flow requirements as stipulated in the approved budget and subject to satisfactory progress of the project.

Institutions are required to follow the RGC's, ICAC's and / or the institutional procedures and guidelines, whichever is more stringent, for acquisitions of facilities / equipment / services and for recruitment of supporting staff for projects funded by RGC grants.

(i) Research Support Activities

Please itemize the expenses of each activity. The grant can support the direct cost of organizing activities within the institution, or sending academic staff to participate activities organized by other institutions, either local or overseas.

If any overseas travel is required, the grant can support economy class roundtrip air passage by the most direct route, hotel accommodation, and subsistence allowance. The expenses / allowances should follow the RGC's / ICAC's / the institutional procurement procedures and guidelines, whichever is more stringent, and should not exceed the limit set by the institution. Should there be any expenses exceeding the set limit, institutions are required to bear the differences.

The following points should be addressed:

- How can the proposed activities help build up the research capacity of the institution?
- How can the participants benefit from the proposed activities?
- Has the institution organized / academic staff participated in such activities before? If "yes", please elaborate on the effectiveness of these activities.
- If the proposed activity requires overseas travel, please state
 - the reasons why this activity is recommended;
 - the criteria for selecting academic staff to attend and the justifications;

- if there is / are any similar activity(ies) held in other local institutions?

Please mark respective item number(s) clearly in the quotation(s). The quotation(s) must be submitted together with the application on or before the deadline of submission of applications. **Late submission will NOT be accepted.**

(ii) Facilities and Equipment

Please itemize all facilities and equipment expenses. The grant can be used to support the acquisition of equipment and / or research materials to facilitate research activities carried out in the institution. The equipment and / or research materials should be shared use by academic staff of the institutions.

RGC funds cannot be used to purchase personal electronic devices such as cell phones, smartphones, tablet computers, MP3 players, personal digital assistants (PDAs) and digital cameras / video recorders except with sound justification as approved by the RGC. In addition, the institution cannot use this funding for the purchase or use of standard equipment such as desktop PCs, servers, laptop computers, printers and scanners known to be available, or items reasonably expected to be provided in the institution concerned.

RGC grants must not be used for construction / building / renovation work.

For purchase of equipment at or **over HK\$2.5 million**, the following supplementary information is required:

- Has the institution already been provided with similar equipment? If yes, please explain the need for the purchase.
- Is there similar equipment elsewhere in other institutions? If yes, please provide the following information regarding such equipment in other institutions as far as possible:
 - brand / model details and the year of purchase of the equipment;
 - the number of hours of its utilization and percentage of utilization (say per month / year as appropriate);
 - the estimated number of hours (say per month / year as appropriate) available for use by other institutions per year;
 - whether and how it can perform more / less functions and capabilities than the equipment under application;

- whether there is a practice of shared use of the equipment with other institutions currently and in the past two years; and
- any other reasons that preclude the shared use of the equipment with other institutions.
- Please provide a utilization plan of the equipment including the following information -
 - Level of use: Please advise the potential users of the equipment, and provide the estimated numbers of users, including staff members and / or students expected to use the equipment under application and the estimated number of hours per annum of utilization.
 - Plan for share use: Will the equipment be available for use by institutions other than the collaborating institutions under the application? If yes, please advise your plan to promote share use of equipment, (e.g. uploading the information of the equipment on the website) and state the extent of shared use by other institutions (e.g. the number of hours available for sharing per week).
 - Provision of training: Whether training will be provided for the use and / or manning of the equipment.
 - Potential use of the equipment after project completion: Please advise how the equipment can be fully utilized after project completion.

Documents supporting the estimated cost of equipment must be given, e.g. quotations from suppliers. Please mark respective item number(s) clearly in the quotation(s). The quotation(s) must be submitted together with the application on or before the deadline of submission of applications. **Late submission will NOT be accepted.**

(iii) Supporting Staff

Please list the post of each staff proposed to be hired. The supporting staff can be a technical / administrative staff. **The post of the staff should reflect the duties performed. The RGC's, ICAC's and institutional guidelines and procedures on recruitment of supporting staff, whichever is more stringent, should be complied with.** The salary / compensation should align with other staff of the same post / rank in the institution. The RGC may require the institutions to provide such information in the Auditor's Report.

The following points should be addressed:

- Why is the staff proposed at such rank?
- Will the staff be a new headcount or redeployed from other department / office of the institution?

(vii) Auditing Expenses

According to the SF-DAMA, upon completion / termination of a funded project, the institution is required to submit an Auditors' Report together with the unspent balance, if any. Hence, the auditing expense is an allowable item to be included in the budget. The indicative reference rates for auditing expenses are as follows:

Size of Grants	Ceiling for Audit Fee
below \$1M	\$7,000
\$1M to less than \$10M	\$15,000
\$10M or above	\$20,000

- (c)-(d) Please confirm whether or not the requested equipment / research-related software licence / dataset is available in the institution. If yes, please explain why such related equipment / software cannot be used by the project team.
- (e)-(h) Please confirm whether the proposal is related to on-going / completed projects, or proposals pending funding approval.

It is the responsibility of the **Project holder / Team leader** to ensure that no duplicate funding from all sources including the RGC will be sought / has been sought for the same / substantially similar project. **If the applicant fails to declare related research work in this section, the application may be disqualified and the applicant may be debarred from applying future UGC / RGC grants.**

Applicants should declare if the proposal is related to any on-going / completed projects or proposals pending funding approval. Component(s) of program activities in the proposal that has / have already been funded by other funding schemes, either by the RGC or other funding bodies, should also be highlighted. It is the RGC to make the final decision on whether two proposals / projects are related. The judgment of the RGC is final. Therefore, it is always advisable for the applicant to declare related proposals / projects when there is uncertainty. The applicants are advised to make the declaration and to elaborate on the differences between the proposals / projects to avoid

misunderstanding. Declaration of related proposals / projects does not necessarily mean that the proposals concerned will be adversely affected. The RGC may still fund the proposals concerned if the applicant is able to justify the differences of the proposals / projects for separate funding.

The Project holder / Team leader is responsible to report immediately via RC of the institution to the UGC Secretariat any updates on grants records, including declaration of related projects / proposals.

5. Funds Secured or To Be Secured

Please provide information on other funds already secured for this proposal. Other sources of funds include private donations, awards or grants from other organizations, contract research funds from commercial enterprises or special allocation made by the institution (including seed funding), etc. It should be noted that the amount secured from other sources should be stated on Part II Section 4(a)(v) above and the amount will be deducted from the total cost of the project.

The RGC has the sole discretion in deciding the final funding. Even if the proposal is fully funded as requested, **the RGC funds must not be spent on non-permissible items unless approval is obtained from the RGC.**

ANCILLARY INFORMATION

6. Research Ethics / Safety Approval and Access to Government / Official / Private Data and Records

(a) Research Ethics / Safety Approval

It is the responsibility of the institution and the Project holder to ensure that the research proposal is carefully reviewed for its compliance with applicable laws, health and safety guidelines and ethical standards. Ethics clearance should be sought for research involving living animals and / or human subjects including social sciences research involving human subjects (e.g. potential physical / psychological harms, discomfort / stress to human participants that a research project might generate, subjects' privacy, etc.). The primary responsibility of seeking the relevant approval and ethics clearance rests with the Project holder. The Project holder is required to complete and sign Part III of the Application Form to confirm whether the research proposal involves human subjects and certify whether the relevant ethics / safety approval

is required and if required, the relevant approval has been given / is being sought.

(b) Access to Government / Official / Private Data and Records

It is the responsibility of the institution and the Project holder to ensure that approval has been sought for access to Government / official / private data and records if the related data / records are critical to the research proposal. The primary responsibility of seeking the relevant approval rests with the applicant. The Project holder is required to complete and sign Part III of the Application Form to confirm the relevant approval, if necessary, has been given / is being sought.

For both (a) and (b) above, the institution and the Project holder should ensure that such approval will be obtained and provided to the RGC by 25 June 2021. The institution and the Project holder should also note that if such approval is not obtained by the deadline, the RGC will regard the IDS Research Infrastructure Grant application as a withdrawn case and will stop further processing it.

If the institution / Project holder declared that no approval was required but the RGC / Panel eventually considered otherwise, the related application may be disqualified.

7. Release of Completion Report, Data Archive Possibilities and Public Access of Publications Resulting from Research Funded by the RGC

Release of Completion Report

The institutions are required to release the completion reports (containing abstract in non-technical terms, objectives, research output including the list of conference papers / publications / journals and research findings and contact information of researchers concerned) to the public through the RGC website. The institutions should assess data archive potential and opportunities for data sharing. Due additional weight will be given to an application where the applicants are willing to make research data available to others.

Project holders are required to include in the project completion reports the URL links to the institutional repositories or the publishers' websites so that the public could have quick and easy access to the manuscripts or journal articles, if applicable. Project holders are also encouraged to include in their research completion reports the data repositories where research data of their projects could be accessed and shared, where appropriate.

Public Access to Publications Resulting from Research Funded by the RGC

- (i) Upon acceptance of a paper for publication, if applicable, the Project holder should ensure the researcher concerned to check whether the publisher already allows (a) full open access to the publisher's version, or (b) the author's depositing a copy of the paper (either the publisher's version or the final accepted manuscript after peer-review) in the institutional repository for open access;
- (ii) if both (i)(a) and (b) above are not allowed, the Project holder should ensure the researcher concerned to request the publisher to allow him / her to place either version in his / her institutional repository for restricted access immediately upon publication or after an embargo period of up to twelve months if required by the publisher; and
- (iii) subject to the publisher's agreement on (i) or (ii) above, the researcher concerned should deposit a copy of the publication in his / her institutional repository as early as possible but no later than six months after publication or the embargo period, if any.

PART III DECLARATION OF INSTITUTION**[To be completed by the appropriate authority of the institution]****1. Eligibility Requirement for IDS Research Infrastructure Grant**

The institution should confirm that:

- (a) the institution has evaluated and supported the application before submission to the RGC;
- (b) the Team leader fully meets the eligibility as stated in Part I Section 2(b) of the Application Form and is not debarred from applying for any UGC / RGC grants;
- (c) the Team leader is / will be seconded to conduct research in a university or a research institute / body / agency in the Mainland / overseas jurisdiction with effect from the date as stated in the Application Form while retaining his / her full-time appointment and position with his / her parent institution and is still on the payroll of the parent institution.
- (d) the Team leader will have the average number of hours per week as declared in Part I Section 2(a) of the Application Form to supervise the proposed project without prejudice to his / her existing commitment in the research work, teaching and administrative duties;
- (e) the project team will abide by the in-house guidelines, as well as the relevant guidelines as set out by the RGC and the ICAC, whichever is more stringent, regarding procurement of facilities / equipment / services and for recruitment of supporting staff;
- (f) the institution will inform the RGC as soon as there is a change in the Project holder / Team leader and recommend to the RGC for approval of a suitable new Project holder / Team leader to take over the funded project once it is funded and commenced. The Project holder is required to complete the change request form at SF-DAMA and provide a CV of the new Project holder / Team leader for the RGC's consideration. Normally no extension or change of the objectives of the project concerned will be allowed. As a matter of policy, change of Project holder / Team leader will normally not be approved within the first six months of an approved project and during the process of the application. However, change of Project holder / Team leader from the 7th month may be considered by the RGC under the circumstances as stipulated in the SF-DAMA;

- (g) the institution understands that the IDS Research Infrastructure Grant, if given, will be withdrawn if the project does not start within one year of the announcement of funding result. The institution should report to the RGC as soon as possible when the Project holder / Team leader proceeds on no-pay leave / professional leave for a continuous or cumulative period exceeding 183 days within the project period; and
- (h) if the project is approved, the institution may need to provide additional funding to ensure that the project can be successfully completed. The institution will also provide necessary infrastructural and overheads supports such as normal academic equipment, consumables, postage, fax, stationery, reference books, overseas telephone charges, etc. to the approved projects where appropriate.

2. **Support to the Project Team**

The institution is required to verify and confirm that:

- (a) the project under this IDS Research Infrastructure Grant application is in line with the role of the institution;
- (b) adequate supervision, facilities and training provisions will be in place if this application is supported by the RGC;
- (c) the Project holder's declaration and reasons in Part II Section 4(c) and (d) are genuine and true; and the Project holder's request, if any, is supported;
- (d) the institution will strictly follow the relevant RGC's guidelines during the whole project period to ensure that the project funding is properly used and will return the funding as requested by the RGC when the project is completed / terminated.

3. **Declaration of Research Ethics / Safety Approval and Access to Government / Official / Private Data and Records**

(a) **Research Ethics / Safety Approval**

The institution should ensure that the approval of the appropriate authority(ies) will be obtained and provided to the RGC by 25 June 2021 in respect of projects involving safety hazards or the use of living animal / human subjects, including those in social sciences research (e.g. potential physical / psychological harm, discomfort / stress to human subjects in a research project, subjects' privacy, etc.). It should be noted that all applications must be vetted by the institutions to

ascertain if ethics and / or safety approval is required. If affirmative, the institutions must give approval or exemption according to their internal ethics / safety guidelines or obtain relevant ethics / safety approval from appropriate authority. **If such approval is not obtained by deadline (25 June 2021), the RGC will regard the application as a withdrawn case and will stop further processing it.**

(b) Access to Government / Official / Private Data and Records

The institution should ensure that the approval of the appropriate authority(ies) will be obtained and provided to the RGC by 25 June 2021 in respect of access to data / records that are critical to the proposed research. **If such approval is not obtained by deadline (25 June 2021), the RGC will regard the application as a withdrawn case and will stop further processing it.**

For (a) and (b), **if the institution / Project holder declared that no approval was required but the RGC Committee / Panel eventually considered otherwise, the application concerned may be disqualified.**

Part III of the Application Form should be completed, signed and submitted by the appropriate authority of the institution.

UGC Secretariat
November 2020

Annex A**Handling of Information and Personal Data
Contained in RGC Research Funding Application****Purpose of Collection of Information and Personal Data**

1. Information and personal data contained in your research grant application are collected for the following purposes:
 - (a) determination of your eligibility to apply for a competitive grant from the Research Grants Council (RGC);
 - (b) assessment of the merits of the research proposal which you have submitted for funding support;
 - (c) assisting the RGC panel in identifying external reviewers to assess your research proposal;
 - (d) compilation of periodic reports and statistical returns for analysis and research by the RGC / UGC in relation to the use of public funds;
 - (e) sharing of data with other government department / research funding agencies for the avoidance of duplicate funding; and
 - (f) for successful projects, such data will be used for project monitoring, promotion, publicity and may also be published on the RGC website.

Handling of your information and personal data

2. Your research proposal including your personal data (e.g. CVs) will be handled with care by the RGC. Staff of the UGC Secretariat, members of the RGC and RGC panels, local and non-local reviewers, and other parties who may be involved in the processes described in Paragraph 1 above will be allowed access to the data on a need-to-know basis but they will be placed under a duty of confidentiality to the RGC. Information so collected by the RGC will not be used for any other purposes. If you want to exclude any individuals from access to your research proposal, you should inform the RGC separately when you submit your research proposal. The RGC does not accept research proposals that are classified “confidential” by the applicant. It also reserves the right to stop processing or reject any applications if the applicants’ requests render it impossible for the applications to be adequately peer-reviewed.

3. When the RGC obtains external assessments on your research proposal, external reviewers will be made aware of the existence of a Personal Data (Privacy) Ordinance in Hong Kong, and be forewarned that all written comments about the applicant and research proposal are liable to be released to the applicant concerned upon request. External reviewers will also be advised of the RGC policy on providing feedback to grant applicants described in paragraph 4 below.

4. Applicants should note the following:

- (a) all proposals will have undergone a very rigorous peer-review process which involves external assessments and the relevant RGC panels / committees which are made up of experts from the local and international academic / professional community;
- (b) grants are allocated on a competitive basis and each year is a different exercise (the success rate is based on the general quality of the proposals as assessed by the relevant RGC panels / committees, and the availability of funds, in that particular year);
- (c) the RGC is gradually raising the quality threshold, meaning that only the top and the best quality proposals will be “funded”; and
- (d) comments from all external reviewers on each proposal (except for conference grants / travel grants / fellowship applications) will be provided anonymously to the applicants concerned through their institutions.

Physical retention of applications

5. Applications that are funded by the RGC will be retained at the UGC Secretariat for periodic review of progress and final assessment of the research investigation and outcome, with the assistance of external reviewers where appropriate.

Right of Access to Personal Data

6. Notwithstanding the arrangement described above, nothing in this note will affect your legal rights to request access to personal data held by the RGC about you or your research proposal and to update or correct such data. Nevertheless, the RGC reserves the right to charge a reasonable fee for the processing of any such request(s) in accordance with the prevailing Government regulations.

Further Information

7. All requests for access to your personal data or correction of your

personal data or for information regarding policies and practices and kinds of personal data held by the RGC should be made in writing, by post or by fax, addressed as follows:

Assistant Secretary General (Research) 3
